#### **EMPLOYEE BENEFITS OVERVIEW**

Appropriations for State employee benefits such as social security, retirement, and health insurance are appropriated centrally to the Office of Administration in House Bill 5, and are administered by the Division of Accounting. Each pay cycle, the employer share of benefits are transferred from the various state funds from which salaries of state employees are paid, and deposited into specific contributions funds from which payments are made to the appropriate entity. Therefore, most benefit distributions are comprised of two requests, one for an appropriated transfer from the correct salary funding source, and one for a payment appropriation from the applicable contributions fund.

Other employee benefits paid by the Division of Accounting are the State's reimbursement to the Division of Employment Security for unemployment costs, and payment of workers' compensation expenses incurred as a result of a work related injury or illness.

Administrative appropriations that help manage employee benefits, but do not result in a cost to the State, are for employee-authorized deductions for voluntary life insurance, refunds of deductions withheld in error, a contingency for HR payroll processing time constraint issues, and adequate up-front reimbursement of cafeteria plan medical costs, as required by the IRS.

To increase the appropriated transfer authority from the OA Facilities Maintenance and Operating Fund. Additional PS institutional consolidation amounts were identified by the Departments of Corrections, Social Services, and Elementary and Secondary Education, and are being transferred to the Division of Facilities Management, Design and Construction in FY 12.

Core benefit GR funds are being transferred to the Real Estate HB 13 for FY 12, from where the OA facilities maintenance and operating fund will be reimbursed for centralized facility services and related fringe benefits. This increased appropriation authority from other funds will not add additional benefit costs.

To increase the appropriated transfer authority from the OA Facilities Maintenance and Operating Fund. Additional PS institutional consolidation amounts were identified by the Departments of Corrections, Social Services, and Elementary and Secondary Education, and are being transferred to the Division of Facilities Management, Design and Construction in FY12.

Core benefit GR funds are being transferred to the Real Estate HB 13 for FY 12, from where the OA facilities maintenance and operating fund will be reimbursed for centralized facility services and related fringe benefits. This increased appropriation authority from other funds will not add additional benefit costs.

To increase the appropriation authority from the OA Facilities Maintenance and Operating Fund. Additional PS institutional consolidation amounts were identified by the Department of Corrections, Social Services, and Elementary and Secondary Education, and are being transferred to the Division of Facilities Management, Design and Construction in FY 12.

Core benefit GR funds are being transferred to the Real Estate HB 13 for FY 12, from where the OA facilities maintenance and operating fund will be reimbursed for centralized facility services and related fringe benefits. This increased appropriation authority from other funds will not add additional benefit costs.

#### 2. CORE DESCRIPTION

The core is established for funding to allow the Missouri Consolidated Health Care Plan (MCHCP) to provide self-insured and fully insured options for state employees, retirees and their dependents. The core request is not sufficient to provide for the additional needs of medical trend inherent in annual medical costs. After benefit design selection and calculation by the actuary of medical trend for CY2012, the MCHCP will submit a cost to continue request in addition to this core request for the total actuarially determined costs of the Plan for FY2012. Medical offerings for CY2011 include two PPO models with coinsurance and deductible, two fully-insured PPO models, a high deductible health plan (HDHP) with Health Savings Account (HSA), and a Medicare Supplement Plan. Prescription drug coverage, disease management, and wellness coverage encompass the additional benefits. The FY2012 core of \$427,320,232 does not include the core for GASB 43/45 (OPEB) funding.

State Contribution/Premium Assumptions: Significant assumptions in the calculation of the actuarially determined costs of the Plan include: Actual premium equivalents as determined by MCHCP's contracted actuary were used in calculating first half FY2012 costs. For CY2012, the following trend rates were used: Active medical claims 9.5%; Non-Medicare retiree medical claims payments 9.5%; Medicare retiree medical claims payments 7.0%; and pharmacy claims 11.0%.

4) High ded	uctible health plan (HDHP) and Medicare Supple	ement enrollment remain constant
5) MCHCP	will continue to subsidize the same percentage o	of premium for active employees in CY2012 as in CY2011, as follows:
Employee a Employee a Employee a	only - 91.6 percent and spouse - 79.8 percent and one child - 89.7 percent and two children - 89.6 percent and three children - 89.5 percent and four children - 89.5 percent	Employee and five or more children - 90.0 percent Employee, spouse and one child - 77.5 percent Employee, spouse and two children - 78.9 percent Employee, spouse and three children - 79.9 percent Employee, spouse and four children - 80.8 percent Employee, spouse and five or more children - 82.2 percent

6) MCHCP will continue to follow the current contribution policy for retirees in CY2012 as in CY2011 (i.e. 2.5 percent of the PPO 600 premium for each year of service)

The self-insured program costs are determined through an enrolled population with actuarial analysis to ascertain required claims needs. Employees selecting the high deductible health plan receive \$58.33 per month (\$700 per year) for employee only and \$116.67 per month (\$1,400 per year) for employee/family toward the health savings account (HSA). Pharmacy benefits are paid by MCHCP through the use of a pharmacy benefit manager and are actuarially calculated based upon enrollment to determine claims funding needs. Administrative services for the self-insured plans are paid to the third party administrators. Payment of claims for self-insured plans is the responsibility of the MCHCP. The MCHCP does not purchase stop loss coverage, but rather self insures against catastrophic claims. All contracts are awarded thorough the competitive bid process.

#### 2. CORE DESCRIPTION

The core is established for funding to allow the Missouri Consolidated Health Care Plan (MCHCP) to provide self-insured and fully insured options for state employees, retirees and their dependents. The core request is not sufficient to provide for the additional needs of medical trend inherent in annual medical costs. After benefit design selection and calculation by the actuary of medical trend for CY2012, the MCHCP will submit a cost to continue request in addition to this core request for the total actuarially determined costs of the Plan for FY2012. Medical offerings for CY2011 include two PPO models with coinsurance and deductible, two fully-insured PPO models, a high deductible health plan (HDHP) with Health Savings Account (HSA), and a Medicare Supplement Plan. Prescription drug coverage, disease management, and wellness coverage encompass the additional benefits. The FY2012 core of \$410,913,704 does not include the core for GASB 43/45 (OPEB) funding.

State Contribution/Premium Assumptions: Significant assumptions in the calculation of the actuarially determined costs of the Plan include:

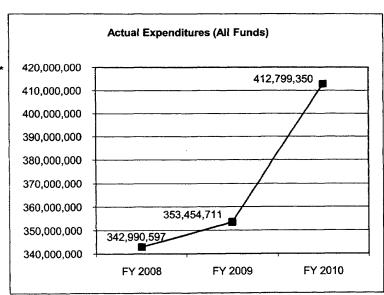

Actual premium equivalents as determined by MCHCP's contracted actuary were used in calculating first half FY2012 costs. For CY2012, the following trend rates were used: Active medical claims 9.5%; Non-Medicare retiree medical claims payments 9.5%; Medicare retiree medical claims payments 7.0%; and pharmacy claims 11.0%.

#### 2. CORE DESCRIPTION

The State was required to implement Governmental Accounting Standards Board (GASB) Statement #45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (OPEB), for fiscal years beginning July 1, 2007. GASB #45 requires that all government entities report expected future retiree costs, including other postemployment benefits (OPEB), as they are earned.

Until FY 2008, the State provided retiree medical benefits on a pay-as-you-go basis. That is, the State and its retirees annually contributed the cash cost of the benefits provided, and benefits expected to be incurred in future years were not pre-funded. In FY 2009 and FY 2010, a portion of the State's annual required contribution (ARC), determined by an actuarial study, was appropriated. Pre-funding this liability is key to sound financial management. The bond rating agencies have indicated that they expect government entities to come up with a plan for addressing OPEB liabilities.

The entire core appropriation was restricted in FY 2011, and therefore must be eliminated in the FY 2012 request, per budget instructions.

coverage pursuant to the 1986 Consolidated Omnibus Budget Reconciliation Act (COBRA).

This appropriation request payments directly from the funds that would have gone to the federal government into the State's three health care plan funds, MCHCP Benefit Fund, MoDOT/MSHP Medical & Life Insurance Plan (State Road Fund), and the Conservation Employee's Benefit Plan (Conservation Commission Fund).

As part of the federal stimulus package, the State will be issued a partial credit of the amount of the employer match of OASDHI that must be paid to the federal government. The funds retained by the State are to be used to cover a portion of the health care premiums paid by former State employees who have continued

This appropriation does not increase the amount of funds expended by the State, it just provides the appropriation authority to distribute funds for the correct purpose to the correct benefit recipients. The Federal Act extended benefits to be paid through August 2011.

### 2. CORE DESCRIPTION

Core funding to provide sufficient monies to reimburse participants in flexible medical cafeteria plan accounts early in the calendar year, per IRS regulations, from general revenue. Monies are repaid later in the calendar year. Since the state has moved to a twice-a-month payroll, the use of this appropriation has decreased. However, it is necessary to maintain compliance with IRS regulations.

### 2. CORE DESCRIPTION

This is a request for an appropriation from general revenue to ensure that payroll checks submitted for payment against accounts with temporary allotment or fund cash flow problems, can be generated within the time constraints of pay-period processing. This contingency funds appropriation will provide a temporary account to fund the payroll, which will then be restored when the payment is corrected back to the account originally charged, or to a corrected account number.

#### 2. CORE DESCRIPTION

The State of Missouri is responsible for payment of workers' compensation benefits to injured state employees in accordance with Chapter 287, RSMo. This core funding is requested to fulfill the statutory requirements for payment of employee indemnity, medical, and settlement expenses incurred as a result of a work related injury or illness. Certain administrative, legal, loss control, and claims mitigation costs included in this request are authorized, in part, by Section 105.810, RSMo.

The Risk Management section administers the workers' compensation program for all state employees excluding those employed by the Missouri Department of Transportation, Missouri State Highway Patrol, and the University of Missouri system. The Attorney General's Office provides legal defense in workers' compensation claims filed by state employees.

The payment of workers' compensation benefits for all state employees covered under this program, excluding Department of Conservation employees, are made from the general revenue appropriation. Department of Conservation employees receive benefits paid through the Conservation fund appropriation. Payments made by general revenue on behalf of employees paid from other funding sources are transferred from these funds back to general revenue through a separate appropriation. Because of the contingent nature of these mandatory costs, funds appropriated for payment of workers' compensation costs are requested on an estimated basis.

### 2. CORE DESCRIPTION

Department

Office of Administration

Core appropriation to pay workers' compensation tax and second injury fund assessments in compliance with Sections 287.690, 287.710 and 287.715, RSMo.

As a workers' compensation self-insurer, the State pays its workers' compensation tax and second injury fund assessments based on billings received from the Department of Revenue and the Division of Workers' Compensation. Quarterly workers' compensation estimated tax payments are made to the Department of Revenue based on current year tax rate applied to the prior year premiums. Once final payrolls are calculated and actual obligations known for the calendar year, a reconciling payment for the year in question is made by June 1st of the following year. Second injury fund tax payments are made to the Division of Workers' Compensation quarterly during the calendar year based on the surcharge established for the current year applied to the previous years premiums.

The requested FY 2012 appropriation will be used to pay two quarters of CY 2011 and two quarters of CY 2012 estimated workers' compensation taxes, plus any CY 2011 reconciling payment as determined by the Department of Insurance and the Division of Workers' Compensation. Due to the variability and uncertainty of the many factors influencing the tax obligations of the state as a self-insurer, the Office of Administration requests this appropriation continue on an estimated basis.
